PROFILE SUMMARY

UX design student focused on UI/UX, with a strong interest in storytelling and user research. Passionate about creating clear, engaging digital experiences. Currently seeking a UI/UX design internship to apply and grow my skills.

SKILLS

- **Design Skills:** Wireframing, User Research, Storytelling, Information Architecture, Micro Interactions, Visual design, Brand Storytelling
- **Tools:** Figma, Adobe Illustrator, Procreate, Framer (basic)
- **Soft Skills:** Teamwork, Communication, Problem Solving

EDUCATION

Unitedworld Institute of Design
Bachelor of Design (Hons.), Interaction Design

July 2024– Present

PROJECTS

STUDIO I: EXPERIENCE DESIGN ||

- Coffee Machine UX Redesign (Studio Project)
- Conducted in-depth user research to understand challenges with public coffee machines.
- Compared real-life self coffee-making experience with machine experience to identify gaps.
- Used empathy mapping and user journey mapping to uncover confusion and cognitive overload.
- Identified key issues such as unclear guidance, low user control, and user intimidation.
- Explored solutions through low-fidelity wireframes.
- Designed a simplified, step-by-step flow with features like real-time guidance, taste testing, and summary review.

BRAND STORYTELLING ||

- Designed social media carousels for Chilis, Fuji, and Ghia.
- Focused on storytelling-driven visuals to enhance user engagement.
- Developed distinct brand identities for each, including colour, type, and tone.
- Created cohesive yet dynamic layouts to maintain interest across slides.
- Designed scroll-stopping compositions to improve engagement.

ACHIEVEMENTS

- Participated in a design hackathon, collaborating in a team-based problem-solving environment
- Awarded Dean's List Certificate for academic excellence in Studio Experience Design
- Completed UX/UI-related certifications from Google (Coursera) and LinkedIn Learning
- Volunteered in the organization of Symposium 2026, contributing to event coordination and teamwork
